Denmark

9th October 2019

Dear Sir,

Re: Sprinkler and water spray products

We write to confirm our understanding that when we purchased certain assets from Kidde Products Limited in June 2013 the Angus Fire Sprinklers division remained with Kidde Products Limited and was subsequently divested to GW Sprinkler A/S.

It is our belief that the products listed below are manufactured by GW Sprinkler A/S and are now sold under their "GW" branding, as GW Sprinkler A/S do not own the Angus brand.

Angus automatic sprinklers – model Angus-S
Angus Thermospray – medium velocity nozzles
Angus Fyrhed – high velocity nozzles
Angus MJC-valves – multiple jet control
Angus deluge valves – model MKIII
Angus Thermocool nozzles
Angus Sealed Thermospray
Angus Watercurtain nozzles
Angus Thermoshield nozzle – model 883B
Angus Cable Tray nozzle

Yours faithfully,

CEO
Angus Fire Limited
